Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Deal (US 5,857,275).

Deal discloses a three dimensional label to be adhered to a bottle. The label is comprised of a three dimensional surface extending away from the bottle and a flat portion flush with the bottle.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Evans (US 5,358,770).

Evans discloses a label adhered to a container having a raised surface extending away from the container and a flat surface flush with the container.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gelsinger et al (US 5,958,536) and Rea (US 6,086,702) both disclose labels for containers.
